# REQUIREMENTS

- Alexander Blade's ScriptHookV

# Installation Instructions

- Install all the **required files**
- Extract **ReducedBloodEffects.asi** in to your game's root folder (where GTA5.exe is located at)
- Done!

# HOW TO USE

The mod is enabled by default. It removes blood from peds, vehicles and weapons.

# DESCRIPTION

Reduced Blood Effects aims to remove all blood elements from GTA V's game world. This mod is for those who find blood in modern video games disturbing due to how realistic they are.

# credits

- **alloc8or** for his contributions to the modding community and specifically for providing an up to date native database
