

THE DOCK PACK

This mod adds and improves several vehicles related to longshore work. There are two variants of the Declasse Yosemite 1500, intended as pilot cars to escort trucks during port operations or to conduct maintenance duties around the container yard. The vanilla dock vehicles are revamped as well, including the container trailers and the bomb carts. They now sport liveries and the Docketug and Dock Handler also have the ability to turn their roof beacons on just like the vanilla Airtug. In addition, the Port Authority of Los Santos is given a police division featuring uniformed officers and their fleet consists of the first generation Vapid Stanier and a Nagasaki Dinghy boat for patrols.
