

IMPROVED SEMINOLE

The Seminole has been revamped to turn the fog lights on its front bumper to be functional. The permanent brush bar on the front bumper has also been turned into an extra part, so a version of the vehicle may spawn without equipping it. The rims has also been replaced with new ones. There also the side steps and roof rails added as separate tuning parts that can be selected inside a tuning shop or a trainer. The tuning ID used in this mod is **786**.

REQUIREMENTS:

INSTRUCTIONS:

- **Run OpenIV, click on “Edit Mode” and make sure you have installed one of the modified *gameconfig.xml* listed above in case you do not have any previously installed. This way your game will be able to handle add-on vehicles properly and it will not crash during loading;**
- **Run the *improvedseminole* OIV package installer to automatically install the mod archive and register the *.meta* changes to the base game files and wait until the process is done;**
- **After following these steps, launch the game and enjoy.**

CHANGELOG:

- **1.0** – Initial release
- **1.1** – Changed the textures of the tail lights, fixed the front fenders and added roof rails and side steps as tuning parts
- **2.0** – Completely remade the vehicle and added new rims
- **2.1** – Changed the installation method using the OpenIV Package Installer
