INSTRUCTIONS:

- **Run OpenIV, click on “Edit Mode” and make sure you have installed one of the modified *gameconfig.xml* listed above in case you do not have any previously installed. This way your game will be able to handle add-on vehicles properly and it will not crash during loading;**
- **Run the “lspdbicycle” OIV package installer to automatically register the .meta changes to the base game files and wait until the process is done;**
- **After following these steps, launch the game and enjoy.**

KNOWN ISSUE: The Scorcher Patrol might randomly spawn in places far from Los Santos as Rockstar reused the "BIKE_BEACH" "CAmbientModelSet" entries on scenarios placed in unrelated areas.
