

IMPROVED LIFEGUARD SUV

This mod improves the default Lifeguard SUV. It now has functional red emergency lights instead of just amber coronas, it also has a few equipment inside the trunk, wobbling antennas, and new wheels that replace the default ones. The livery has been improved to correct the inconsistencies on the right side and rear part of the vehicle. The SirenSetting ID used in this mod are **930** in Legacy and **175** in Enhanced.

INSTRUCTIONS:

- **Make sure the most recent versions of all requirements are installed before starting the setup process.** For example, if you are not using a modified *gameconfig.xml* your game will not be able to handle add-on vehicles properly and it will crash during loading;
- Choose the correspondent mod version to (Legacy or Enhanced) to be installed, open the OIV Installer folder and run the “lguard suv” OIV or simply drag and drop the file into the Package Installer and assign the correct directories for the setup. Do not enable “Skip backup” to be able to uninstall the mod at a later time if necessary. Press “Install” to automatically add the new files and register the *.meta* changes to the base game files. Wait until the process is done.
- After following these steps, launch the game and enjoy!

ALTERNATIVE MANUAL INSTRUCTIONS:

Follow these instructions only if the automatic OIV installation procedures do not work as intended:

- Run OpenIV (Legacy only) or CodeWalker to proceed with the manual steps. Choose the correspondent mod version (Legacy or Enhanced) to be installed, drag the “sp_lguard” folder located in Manual Installation to update/x64/dlcpacks/ and **add** the following line to *dlclist.xml* located in update.rpf/common/data then save the file:

```
<Item>dlcpacks:/sp_lguard/</Item>
```

- Go to update.rpf/common/data/levels/gta5/vehicles.meta directory and edit the *vehicles.meta* file, **replace** these respective entries with the following lines below within the “lguard” entry and then save it:

```
<rewards>
```

```
<Item>REWARD_HEALTH_ENTER_VEHICLE</Item>
```

```
<Item>REWARD_STAT_HEALTH</Item>
```

```
</rewards>
```
