

IMPROVED BRUTE AMBULANCE

This mod adds a full vehicle mapping template to the original Ambulance, there are 9 liveries for the vehicle, with new canon-based liveries from most hospitals in San Andreas and the vanilla liveries has also been adjusted to be more consistent with the lore, this includes the vanilla LSFD livery being split into LSFD and LSCoFD, while still staying consistent to the canon. The Ambulance has also been modified to include an interior with complete medical equipment.

INSTRUCTIONS:

- **Make sure the most recent versions of all requirements are installed before starting the setup process.** For example, if you are not using a modified *gameconfig.xml* your game will not be able to handle add-on vehicles properly and it will crash during loading;
- Choose the correspondent mod version to (Legacy or Enhanced) to be installed, open the OIV Installer folder and run the “improvedambulance” OIV or simply drag and drop the file into the Package Installer and assign the correct directories for the setup. Do not enable “Skip backup” to be able to uninstall the mod at a later time if necessary. Press “Install” to automatically add the new files and register the *.meta* changes to the base game files. Wait until the process is done.
- After following these steps, launch the game and enjoy!

ALTERNATIVE MANUAL INSTRUCTIONS:

Follow these instructions only if the automatic OIV installation procedures do not work as intended:

- Run OpenIV (Legacy only) or CodeWalker to proceed with the manual steps. Choose the correspondent mod version (Legacy or Enhanced) to be installed, drag the “sp_ambulance” folder located in Manual Installation to update/x64/dlcpacks/ and **add** the following line to *dlclist.xml* located in update.rpf/common/data then save the file:

```
<Item>dlcpacks:/sp_ambulance/</Item>
```

ADDITIONAL INSTRUCTIONS:

To make the Ambulance have the old-gen rims, no plate frame for the front license plate or both of the options, it is necessary **to have the vehicle model manually replaced** with an alternative version included in the installation files:

- Replace the *ambulance.yft* and *ambulance_hi.yft* files located in x64/dlcpacks/sp_ambulance/dlc.rpf/x64/levels/gta5/vehicles/vehicles.rpf with the ones from either “No Plate Frame” or “Old Gen Rims” or “No Plate Frame + Old-Gen Rims” folder.

To make the Ambulance have the vanilla LSFD livery, it is necessary to have the vehicle texture manually replaced with an alternative version included in the installation files:

- Replace the livery inside the *ambulance.ytd* located in `x64/dlcpacks/sp_ambulance/dlc.rpf/x64/levels/gta5/vehicles/vehicles.rpf` with the “*VANILLA FILE*” livery from the “*Vanilla LSFD Livery*” folder.
