

INSTALLATION GUIDE:

CARTELLI ITALIANI – ITALIAN BILLBOARDS

Updates History:

Version 1.0.3 (published 13/04/2020). Fixed some mistakes in some path files.

Version 1.0.2 (published 02/06/2018). Added some files to the mod, you will find them inside the “Miscelaneous v. 1.0.2” folder. Who has installed my mod before this version, just need to add those files.

Version 1.0.1 (published 19/05/2018). Added some files to the mod, you will find them inside the “Miscelaneous v. 1.0.1” folder. Who has installed my mod before this version, just need to add those files.

Needed requirements: To install this mod in your gtav game, you need to have the following tools:

- Open IV (disponibile sul sito <http://openiv.com/>)
- A genuine game version!
- A bit of experience about installing games mod (you will need to modify data files)

INSTALLATION

To install this mod, you need to replace the game files with the files inside the “Files” folders of this mod with OpenIV tool. Each file must be replaced in its game place, and you can find the right place posted

in the “Patch” text file, or using the search function of OpenIV by the file name. Be carefull with search function you could have problems, because many files with the same name are placed in differents path.

The whole mod, include about 95% of the main billboards and many minor billboards, however for the size of the files it has been published in gtav areas.
